

## The IntelliBatt Battery

Not all batteries are created equal. Here's what sets IntelliBatt's Superior Performance Series VRLA batteries apart from all the rest.:

- 10 or 20 year design life
- Three year warranty
- Individually formed and quality tested positive and negative plates
- 100% recyclable

Batteries are stored in temperature-controlled environments and are rigorously tested. We promise prompt shipment

of batteries that are available to ship within 1-2 weeks or sooner in emergency situations.

Made in the U.S. to the highest quality standards and come with a warranty backed by a manufacturer in business for more than 40 years.

Contact us for a virtual tour online or an in-person meeting to understand why our batteries are the highest quality in the industry. Also upon request, tours are available of the battery manufacturing facility where quality is evident in every facet of the operation from raw materials to state-of-the-art equipment and production methodologies.

### A Few of Our Popular Models

Model No.	Terminal Type	Nominal Voltage	Design Life	Discharge Ratings—15 Min. @1.67 V.P.C.
IB12-150	Top Terminal	12	10 years at 25°C, IPF Technology	119
IB 12-200	Top Terminal	12	10 years at 25°C, IPF Technology	168
IB 12-300	Top Terminal	12	10 years at 25°C, IPF Technology	253
IB 12-350	Top Terminal	12	10 years at 25°C, IPF Technology	314
IB 12-400	Top Terminal	12	10 years at 25°C, IPF Technology	377
IB 12-500	Top Terminal	12	10 years at 25°C, IPF Technology	475
IB 12-550ET	Front Access Terminal	12	10 years at 25°C, IPF Technology	550
IB 12-7500ET	Front Access Terminal	12	10 years at 25°C, IPF Technology	750

## Monitoring

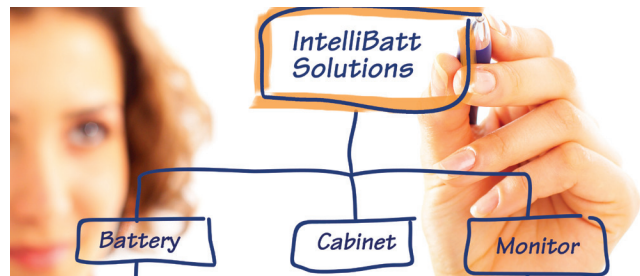

Without an attached monitor, operators must react and replace batteries based on a fixed schedule (or on an emergency basis) in an attempt to ensure uninterrupted power. But with IntelliBatt's continuous monitoring, surprises are eliminated and operators are immediately notified the moment any data trend indicator begins to deviate from IEEE guideline parameters. Such notifications can also be used to document battery warranty claims, and can be accessed remotely via the web, email, or SMS. In short, we provide visibility, reliable security, and flexible alert methods—all in one package.

Data points monitored by IntelliBatt's comprehensive battery monitoring system:

- Individual Battery Voltage
- Individual Battery Impedance
- Individual Battery Temperature (true internal temperature measured at negative battery post)
- String Current
- Ripple Voltage
- Ripple Current
- Rapid sampling during float, charge, and discharge

## The IntelliBatt Cabinet

- Affordable cabinet enclosures for your battery and battery monitor
- Modern designs to accommodate innovative front-access terminal configuration
- Integrated circuit breaker in each cabinet to ensure maintenance bypass is possible for unit replacements without bypassing the entire UPS system
- Full compliance with all UL and related standards as a complete system
